

The Death of Livingstone and the Myth of Victorian Imperialism

The death of David Livingstone in 1873 was a major event in Victorian Britain. Livingstone was a Scottish missionary and explorer who had spent many years in Africa, and his death was seen as a great loss to the British Empire. However, the death of Livingstone also led to the creation of a myth about Victorian imperialism. This myth portrayed Livingstone as a hero who died while trying to bring civilization to Africa, and it helped to justify the British Empire's expansion into Africa.

The myth of Livingstone is a complex one, and it has been used to justify a variety of different policies and actions. In the late 19th century, the myth was used to justify the British Empire's expansion into Africa. In the early 20th century, the myth was used to justify the British Empire's involvement in World War I. And in the mid-20th century, the myth was used to justify the British Empire's response to the Mau Mau Uprising in Kenya.

The myth of Livingstone is a powerful one, and it has had a lasting impact on British history. However, it is important to remember that the myth is just that - a myth. Livingstone was not a hero, and he did not die while trying to bring civilization to Africa. In fact, Livingstone was a complex and flawed figure who was often motivated by personal ambition and religious zeal. The death of Livingstone was a tragedy, but it was not a tragedy that should be used to justify imperialism.

The Myth of Livingstone
